Felt it up: Relief Chair @ Branch

WHAT IS SF GREEN LABS?

We're not really sure yet, but we're trying to figure it out. For now, it's a blog and a forum for product designers with a focus on recycled materials and green product design. We're looking for like-minded green friends to join us and help steer its evolution. Call it intelligent design; call it eco chic; call it whatever the trendy-term-of-the day is. Leave us a comment and let us know what you think.

-Katie & Tricia

As you know, Tricia and I have a soft spot for things made of industrial felt, so it's no surprise she found this very cool chair. The Relief Chair is designed by Ben Mickus and is available at [Branch Home](#).
