Modern design's new home

FURNITURE UP
TO - 80%

Designer-Sofa Beds
from \$259.00

The Relief Chair's contours invite the user to sit back and relax. The body of the chair is a layered assembly of medium-density wool felt sheared together and sleeved over an internal steel frame. The felt body and frame rest on break-formed stainless steel legs, with a satin finish.

The composition juxtaposes weight and weightlessness with an intrepid stance. The chair makes a statement in any room or lounge.
